

WOOD FOR FIRES

Collect wood towards building a fire

- Make sure it is dead and dry: that means collecting a week ahead, if possible
- Keep in an open carrier bag and bring with you
- Three types of wood

Kindling

- Very thin twigs that snap almost without bending

Small sticks

- Thicker twigs, easily snapped

Thicker sticks

- Up to about 2 or 3 cm thick
- If dead, these should not need cutting, but can be broken

PLEASE NOT:

- NO Treated wood
- NO Wood with sap / leaves etc!!!
- NO Rotten wood
